Education

Indian Institute of Information Technology, Tiruchirappalli

B.Tech in Computer Science and Engineering

Nov 2022 – May 2026

CGPA: 7.15 / 10.0

R.N.T.S College, Sitamarhi

Intermediate in Science (PCM)

Jun 2020 – Feb 2022

85%

Professional Summary

Final-year B.Tech Computer Science student at **IIIT Tiruchirappalli** with strong fundamentals in **Data Structures, Algorithms, and Object-Oriented Programming**. Experienced in building full-stack web and mobile applications using **React.js, Node.js, Firebase, and REST APIs**. Seeking a **Software Developer** role to contribute to scalable, production-grade systems and grow within a collaborative engineering team.

Technical Skills

Languages: C, C++, Python, JavaScript, TypeScript, PHP

Data Structures & Algorithms: Arrays, Linked Lists, Trees, Graphs, Sorting, Dynamic Programming

Frontend: React.js, React Native, Next.js, HTML5, CSS3, Responsive UI Design

Backend: Node.js, Express.js, REST API Design, Session Management, Firebase Functions

Databases: MySQL, MongoDB, Firebase Firestore, SQL Query Optimization

Core CS: DBMS, Operating Systems, Computer Networks, OOP Principles

Tools: Git, GitHub, Postman, Docker (Basics), VS Code

Concepts: MVC Architecture, Client-Server Model, Authentication & Authorization, Agile/Scrum

Experience

Unified Mentor Pvt. Ltd.

Full Stack Developer Intern

Aug 2025 – Nov 2025

Remote

- Developed a full-stack **Soil Farming Agent** platform using Firebase Authentication and role-based access control.
- Built dynamic dashboards for multiple user roles, ensuring secure and restricted data access.
- Integrated Firestore for real-time database operations, improving system responsiveness.
- Collaborated in agile development with sprint planning, standups, and peer code reviews.

Projects

ResumeIQ — AI-Powered Resume Analysis Tool

Feb 2026 – Mar 2026

- Built a **React.js** web application that compares resumes against job descriptions via REST API calls, delivering structured match feedback to users.
- Implemented component-level state management and asynchronous API request handling to ensure smooth, non-blocking UI interactions.
- Designed reusable UI components with a clear information hierarchy, reducing time-to-insight for end users.

FaithConnect — Cross-Platform Mobile Application (MVP)

Dec 2025 – Jan 2026

- Developed a cross-platform mobile app using **React Native** and **TypeScript**, targeting both iOS and Android from a single codebase.
- Integrated Firebase Firestore for real-time data synchronization and Firebase Auth for secure user onboarding.

EasyAppoint — Appointment Booking Platform

Feb 2025 – May 2025

- Engineered a full-stack booking system using **PHP, MySQL, and JavaScript**, supporting concurrent user and admin workflows.
- Designed a normalized relational database schema with optimized SQL queries to handle booking conflicts and session-based authentication.
- Built separate dashboards for users and admins with role-aware scheduling, cancellation, and appointment management features.

Certifications

- Cloud Computing — NPTEL (IIT Kharagpur)
- Ethical Hacking — NPTEL (IIT Kharagpur)
