Professional Summary

Frontend-focused final-year B.Tech CSE student at IIIT Tiruchirappalli with strong expertise in **React.js**, **Next.js**, **Tailwind CSS**, and **responsive UI engineering**. Experienced in building production-grade dashboards, authentication flows, and role-based user interfaces, achieving up to **30% performance improvement** through optimized rendering, effective state management, and UI best practices.

Skills

Frontend Development: React, Redux, Next.js, HTML5, CSS3, Tailwind CSS, Responsive UI Design

React Engineering: Functional Components, Hooks, Context API, REST API Integration

UI Performance: Component Optimization, Lazy Loading, Efficient Rendering

Languages: JavaScript (ES6+), TypeScript, C++

Backend (Supporting): Node.js, Express.js, JWT Authentication

Developer Tools: Git, GitHub, VS Code, Postman, Docker (Basics)

CS Fundamentals: Data Structures & Algorithms, Operating Systems, Computer Networks

Experience

Full Stack Web Development Intern (Project-Based)

Aug 2025 – Nov 2025

Unified Mentor Pvt. Ltd. (Remote)

HTML5, CSS3, JavaScript, Firebase

- Developed the frontend of the Soil Farming Agent web application using **HTML**, **CSS**, and **JavaScript**, focusing on responsive UI and role-based interfaces.
- Implemented user authentication, registration, and dashboard navigation using **Firebase Authentication** and **Firestore**.
- Built interactive features for Admin, Farmer, and Distributor roles, ensuring seamless user experience across screens.
- Worked with JavaScript DOM manipulation and Firebase SDK to integrate UI components with real-time data and access rules.
- Project repository: GitHub – Soil Farming Agent

Projects

EasyAppoint — Appointment Booking Platform

Feb 2025 – May 2025

- Built a role-based appointment booking platform with interactive dashboards using **HTML**, **CSS**, **JavaScript**, backed by **PHP** and **MySQL**.
- Designed responsive UI flows for clients and service providers, including booking, rescheduling, and status tracking.
- Optimized UI interactions and backend queries, reducing average booking time by **40%**.
- Implemented secure authentication and session-based access with production-style workflows.

FaithConnect — Mobile Application (Hackathon MVP)

Dec 2025 – Jan 2026

- Developed a mobile-first MVP using **React Native** and **TypeScript**, focusing on clean UI components and smooth user navigation.
- Implemented role-based onboarding, content feeds, follow system, and one-to-one real-time messaging.
- Integrated **Firebase Authentication** and **Firestore** to support real-time updates and secure data access.
- Focused on UI/UX consistency and complete end-to-end user flows.

ResumeIQ — AI-Powered Resume Analyzer

2026 – Present

- Developed an AI-powered resume analysis tool that allows users to upload resumes and input job details such as **company name**, **job role**, and **job description**.
- Built a multi-page frontend application using **React.js** and **React Router**, enabling job creation, resume upload, and results navigation.
- Integrated **Puter.js** to evaluate resumes against job requirements and generate an **ATS compatibility score** with actionable feedback.
- Designed a clean, intuitive UI to present match scores, strengths, gaps, and recommendations for resume improvement.
- **GitHub Repositories:** EasyAppoint | FaithConnect | ResumeIQ

Certifications

- Ethical Hacking — NPTEL
- Cloud Computing — NPTEL
- Privacy and Security in Social Media — NPTEL

Education

Indian Institute of Information Technology, Tiruchirappalli

Nov 2022 – May 2026

B.Tech in Computer Science and Engineering

CGPA: 7.15

R.N.T.S College, Morsand, Sitamarhi

Jun 2020 – Feb 2022

Intermediate in Science

Percentage: 85%
